### ONLY DISCOVERY WORTHY OF ANY CONFIDENCE FOR Restoring

THE BALD AND GRAY!

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:—

Buth. Maine, April 18th 1859.

Prof. O. J. Wood & Co. Gents: The letter I wrote you in 1856, concerning your valuable. Hair Restorative, and which you have jublished in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The inquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third does my hair still continue to be in good order and of natural color? To all I can and will answer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft thrifty rid better colored; the same is true of my whiskers, and the only case why it is not generally true is that the substance is washed off by frequent abilition of the face, when if care were need by wiping the face, in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New Lagiand, asking me if thay hair still continues to be good; as there is so much fraud in the manufacture and sall of various compounds as we las this, it has no doubt been basely mitated and been used, not only without any good tut to abselve injury. I have not used any of the any hair is as good as ever, and hundreds have eximined it with surprise, as I am now 61 years old and and Restorative of any account for some months, and , et my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years oid and not a gray hair in my head or on my face; and to prove this fact. I send you a lock of my hair, taken off the past week. I received your favor of two quart bottles last Summer for which I am very grateful: I gave it to my trienos and thereby induced them to try it, many were skepticle until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many. I fear without authority from you. A pure article will insure success and I believe where good effects, do not follow the failure is caused by the impure article which curses the ininventor of the good. I deem it my duty as heretofore to keep you apprised of continued effect on my hair, as I assure all who enquire of my unshaken opinion of its valuable results. I remain, dear sir, yours.

I assure all who enquire of my unshaken opinion of its valuable results. I remain, dear sir, yours.

Paop. O. J. Wood: Dear sir.—I would certainly be doing you a great it justice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from using oxe bottle of your Hair Restorative. After using every kind of Kestoratives extant, but without success, and finding my head nearly destitute of hair. I was finally induced to try a bottle of your Hair Restorative. Now candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and kandsomer than the original was. I will therefore take occasion to recommend this invalu

nonneericher and kandsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to ALL who may feel the necessisy of it.

Respectfully yours, REV. S. ALLEN BROCK.
P. S.—This testimonal of my approbation for your valuable medicine (as you are aware of) is unsolicited:—but if you think it worthy a place among the rest, insert if you wish; if not destroy and say nothing.

WOOD or COAL.

Ahead of all Competition! 5463 of them manufactured last year—more than double the number of any other first class stove in one year, in the United States.

THEY contain all the improvements which are in all the I first class stoves, and the advantages and improvements over other stoves are in part as follows:

1st. The arrangement for broiling on the front hearth,

an improvement overlooked in other first class stoves.

It has also the same arrangement for broiling on top.

2d. A thorough ventilation of the Oven.

3d. Introducing hot air draught to the fire chamber, thereby increasing the draught of the Stove, quickening its operations, and enabling it to throw out more heat—a and the operations, and enabling it to throw out more heat—a matter much and justly complained of in other Stoves.

4th. An important improvement in the application of the damper, which throws the heat around the oven.

5th. Much greater weight, consequently heavier plates, and more durable as well as handsomer castings. 6th. A draft damper at each end of the fire box, so that the fire is equalized, and one gridle will heat as quick as the other, also heating the oven in half the time.

7th. Fire back protected by soap-stone, so it cannot burn out.

ig. In addition to the above improvements, it has all that is combined in other first class Stoves, viz — Hot water Reservoir, Warming Closet, Roaster in front, Baker on top, Doors lived with best Russia fron, &c., &c.
